Media release

Changes in the PPCmetrics management team

Zurich, 18 December 2023 – PPCmetrics has grown steadily in recent years and, with around 100 employees, is now one of the most important investment consulting firms in Switzerland and Europe. In the interests of forward-looking organisational planning and even better coverage of client needs, the Board of Directors of PPCmetrics AG has decided on a few changes.

Board of Directors

Our founding partner Dr Hansruedi Scherer will retire on 31 August 2024. In the interests of continuity, he is therefore handing over his position as Chairman of the Board of Directors to Dr Andreas Reichlin, the current CEO, with effect from 1 January 2024. Pascal Frei succeeds Dr Alfred Bühler as Vice Chairman of the Board of Directors. Pascal Frei heads the Nyon office in the French-speaking part of Switzerland, which he has successfully built up. The Board of Directors of PPCmetrics AG would like to express its warm thanks to Dr Hansruedi Scherer and Dr Alfred Bühler for the many successful years in their roles.

Executive Committee and CEO

Dr Stephan Skaanes will take over the role of CEO on 1 January 2024. He has managed the Investment Consulting & Controlling division since 2010. In the future, this division will be headed by Alfredo Fusetti. Dr Luzius Neubert and Oliver Kunkel were newly appointed as members of the Executive Committee with effect from 1 January 2024. In addition to advising pension funds and health insurers, Dr Luzius Neubert is also responsible for the growing client segment of charitable foundations and non-profit organisations. Oliver Kunkel heads the Asset Manager Selection division and manages many of the international asset manager selection mandates.

The new composition of the Executive Committee can be found on our [website](#). These changes do not affect our clients. The Board of Directors is convinced that the changes that have been decided will put PPCmetrics in the best possible position to meet the challenges of the future and ensure the greatest possible continuity for our clients.

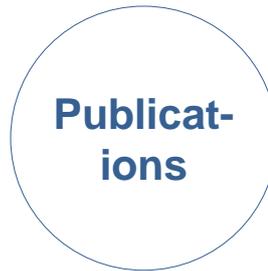

About PPCmetrics: PPCmetrics AG is a leading Swiss consulting firm for institutional and private investors. It advises its clients on the investment of their assets, including on the investment strategy, governance, sustainable investing, the selection of asset managers and ongoing monitoring (investment controlling). www.ppcmetrics.ch
