

Public Procurement Consulting

- » **Leading specialist in public tenders for financial services in Europe**
- » **Systematic evaluation of offers by experienced experts**
- » **Complete support throughout the full process**

The public tendering of financial services poses major challenges for both the client and the participants. As a leading consultant for public procurements and as an investment consultant with one of the largest client bases in Europe, we can provide you with the best possible support to make your tender a success.

Full compliance

Our processes are designed to ensure that the strict guidelines and requirements for the procurement process are adhered to at all times.

PPCmetrics AMS tender platform

Our digital platform is specifically designed for complex tenders. It allows for a robust evaluation process and minimises operational risks.

Process management

We manage every step from planning and publication to the awarding of the mandate. Every step is documented (audit trail).

Cost efficiency

In a public tender, an extensive amount of data has to be processed in a professional and efficient way. Our established processes guarantee a high cost efficiency.

Successful selection

Our methods provide optimal guidance and instruction to tenderers who are often unfamiliar with the form and rules of public procurement.

Solid decision-making

Tenderers are evaluated by our specialists with profound understanding of capital markets and many years of experience as investment consultants.
