

Peer group comparison

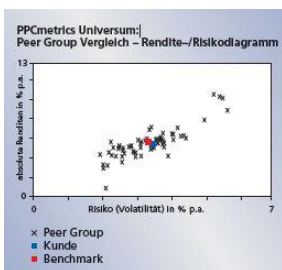

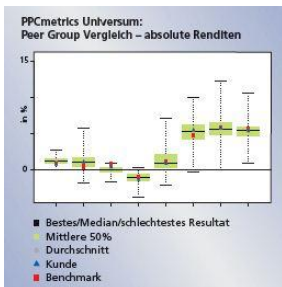

The peer group comparison by PPCmetrics shows in which areas your return on investments can be improved.

Can your investment success be improved?

- **PPCmetrics' peer group comparison** delivers some essential clues in terms of a **potential improvement** in the area of investment.
- A convincing comparison is only possible if your **specific situation is taken into consideration**.
- Our peer group comparison enables you to systematically identify **performance deficits on the level of total assets and asset managers**.

Our services

- **Identification** of adequate **peer groups**.
- Point up the **reasons** behind a possible below average performance of your assets.
- Taking into consideration of your **specific portfolio**: structure, equity quote, part of alternative investments, investment style (active vs. passive, large cap vs. small cap, hedged vs. unhedged), etc.
- Recommendation of **measures** to **improve the performance of the investments**.
- Comparison of **risk and return ratios** on the level of **total assets** and **asset managers** with their peer groups.

Your advantages

- **The performance of your assets is extensively compared with that of other investors.**
- **You know the measures to be taken in order to improve the performance of your investments.**
- **You know in which asset category is need for action to improve its performance.**
